One of them states that there were about 24 passengers on board nine of whom were Chinese. In ascending Bulwer Hill the horses commenced backing on the down grade on the other side. The brake broke and the horses becoming unmanageable the stage swayed fearfully. The kingbolt finally broke and the stage was rolled over carrying the passengers inside with it, and hurling those outside to the ground. Oliver Perkins the driver struck upon his head and was killed. Officer Tuggart of this city had his shoulder dislocated and head badly hurt. Officer Baker of this city had one leg broken the bones projecting through the flesh. A German named Niles had his leg broken and received internal injuries. Mr Baker will probably die. A lady name unknown had an arm and finger broken. All the passengers protested against the driver taking on so many before starting.

The City Election.

The Democratic rout yesterday was the most complete ever witnessed in this city. When the votes were counted they hardly knew there had been a Democratic ticket in the field. Even the First Ward elected a Republican Councilman, almost for the first time in the history of the city. The Republicans expected to elect their city ticket, but their majorities are so great as to be quite astonishing. This result is in part attributable to dissensions among the Democracy, and we cannot do otherwise than acknowledge our indebtedness for help received from those Democrats who had the manliness to refuse to submit to the dictation of the ring which have ruled that party for their own selfish and corrupt purposes. The main reliance of the Democratic party in this city has been upon the Irish voters; but yesterday the Irishmen of the city showed the "ring" that they could not forever be depended on to support any sort of ticket which might be prepared for them. We congratulate them upon their independence and rejoice that they have helped us to teach the small Democratic politicians so good and so useful a lesson. The city of Portland will now be completely under Republican control. The victory gained will be of the greatest importance to the party throughout the State. It will enable us to gain a more general and far more important triumph next year. Why should we not rejoice over so great a victory?

German and Irish Immigrants.

The following interesting statistics of the number of German and Irish immigrants who have entered this country during the last ten years are compiled from an elaborate article presented by the Philadelphia *Ledger*: The total who arrived during that period amounted to 1,202,996 souls—579,753 from Ireland, and 623,243 from Germany. The immigration in the respective years, however, varies considerably in the proportions of the citizens of the two nations. Thus, in 1859, the immigrants from Ireland amounted to 32,652, and from Germany to 28,270 in a total of 60,922. In 1860, the Irishmen numbered 49,330, and the Germans 37,892; total, 85,229. In 1861, Irishmen, 25,784; Germans, 27,139; total, 52,828. The immigration this year, probably in consequence of the rebellion, fell off considerably, and the Germans exceeded the Irishmen in number. In 1862 the Irishmen were 32,317, and the Germans 27,740 in [illegible] 59,957. In 1863, the Irishmen, probably on account of the enlistments in the United States army, suddenly increased to 91,152, and the Germans numbered 35,002, the [illegible] being 126,159. In 1864 the Irishmen were 89,390, and the Germans 57,446, giving a total of 146,845. In 1865, Irishmen 70,[illegible], G[illegible] 83,451; giving a total of [illegible]. In 1866, Irishmen 68,047; Germans, 106,716; total, 174,763. In 1867, Irishmen, 65,134; G[illegible], 117,591; total, 182,725. In [illegible], Irishmen, 57,571; Germans, 101,989; total, 159,560. The increase in the number of G[illegible] the last three years, it [illegible] is due to the war waged [illegible] against Austria and its allies, the [illegible] as also to the removal [illegible] upon emigration.

[illegible] of the Methodist churches in New York City exercised the right of suffrage [illegible] for the first time. The *Sun* relates one funny incident of the election. A lady member of the Allen street church observed her husband coming to vote, and she at once [illegible] over to him and took the ticket out of his hand. Having examined it carefully, she gave it back to him and exclaimed: "You [illegible] vote that, dear; that's all right." This [illegible] created considerable merriment. Ex-Mayor Barker remarked, "That's what we [illegible] owing to [illegible]

The *Rogers' Guard* exclaims: "What a [illegible] and contemptible set of cravens are the great American people for bowing [illegible] to the usurpations of the mongrel tyrants, who are fast crushing out every [illegible] of liberty [illegible] by the blood of [illegible] Why in the name of the late [illegible] Southern Confederacy don't you [illegible] your [illegible] and rebel at once?

General F. A. Starring, of Chicago, has [illegible] appointed General Consular Agent, under the law passed at the last session of Congress. His duties require him to travel all over the world, and to examine the accounts of our Consuls and report to the Government generally in regard to their affairs and management.

The Democratic devices yesterday were "White Man's Ticket," "White Man's Government," etc. But towards evening their flags were drooping and tattered, and "White Man's Government" went to the wall. Can't the *Herald* improve the occasion by giving us a two column article on the Fifteenth Amendment?

It is admitted on all sides that the ticket which has just been elected was one of the best ever presented for the suffrages of the people of Portland. It was a ticket upon which all classes of voters could unite. The magnificent majorities it has won are the best proofs of its fitness in the estimation of our citizens.

The result of the election in this city will probably convince the *Herald* that it has nothing to gain by continuing to din upon that old Chinese gong, which has so long been its favorite instrument. There are not many white men in Portland who are afraid that the Chinese will get the better of them.

The tried Republicans of Portland did a splendid day's work yesterday. They stood to their posts like men and never flinched from the beginning to the end of the contest. To their energy and pluck the splendid triumph achieved is largely due.

That hitherto impregnable Democratic camp, the First Ward, was carried by storm yesterday. The workingmen down there concluded to teach the pompous little Democratic politicians a lesson, and they administered it well.

An enthusiastic Republican last night went to bed twice, but finding that the "band was still playing," got up and joined in the general jubilee. When he went to bed finally "the band was *still* playing."

Among those who participated in the contest yesterday, none worked harder than the German Republicans, and none rejoice more heartily for the victory. Our German friends may always be relied on.

The Fifteenth Amendment is a success in Portland. There is nothing now to prevent any Democrat who wants to from marrying a "nigger" woman or hiring a Chinaman.

"Crow, Chapman, crow." Not much. It isn't Chapman's crow now.

THE CITY ELECTION!!

Great Triumph for the Republican Candidates!

NO DEMOCRAT ELECTED IN THE CITY!!!

Rejoicings over the Result

Yesterday in one of the most exciting struggles ever witnessed in the city the entire Republican ticket was successful by an astonishing majority. Every Republican candidate in the city was elected, and when the polls closed the few Democrats who could be seen were ready to declare that their party had not run any candidates. All of them were beaten out of sight. The full returns are given elsewhere. After the victory was won there was a general manifestation of enthusiasm throughout the city. A large number of citizens on foot and in carriages, headed by a brass band, proceeded to the residence of Mayor Goldsmith and congratulated him on his election. He received them with great cordiality and responded in a brief, but neat and appropriate speech. Mr. Joseph Teal, Esq., was called out, and made a very happy speech, congratulating the audience on the election of Mayor Goldsmith and the success of the ticket.

The crowd then proceeded to the residence of Councilman Bills and gave him a serenade, to which he responded in good style. From there they went to the residence of Mr. Savier to serenade Senator Williams, who had just arrived in the city. The Senator made a short and telling speech, in which he alluded to the happy auspices under which he had reached his home and offered his congratulations upon the splendid victory just gained. Marshal Saunders was next visited. His response was a decidedly good thing. Senator Corbett was then called upon. He entertained the company for a short time with some very appropriate remarks, when the crowd dispersed. The Republicans of the city went home well satisfied with the result of the best day's work ever performed in the city.

First Railroad to the Northwest.

The managers of the Northern Pacific railroad are trying to raise the means and get at work on their line this very season, but, according to Mr. Bowles's new volume, "Our New West," the North West, of the Columbia river valley and Puget Sound, of Oregon, Washington and British Columbia, will first be brought into the railroad circle by means of a branch from the present road near Salt Lake. Thus he describes the feasibility of this route, and the plans of both companies owning the present Pacific railroad, to annex the Northwestern regions to their lines:

The part which the navigation of the Columbia river is to play in facilitating railroad connections with the northwest and settling the lines and points of continental commerce, is an important one. With the help of the two short railroad portages around the rapids, where the river breaks through the mountains, steamboats run up the Columbia continuously to the junction of the Snake or southern branch with the northern fork, a distance of four hundred miles from the mouth of the river. This is the present starting point for land travel and freight from western Oregon to Idaho and southwestern Oregon. The business of these boats amounted in 1864 to twenty two thousand tons of merchandise and thirty-six thousand passengers. The navigation company owned eighteen or twenty steamboats, the railroad portages, extensive warehouses, altogether a property of two million dollars, all and more too, made out of the profits of the business. By a wagon road of one hundred and fifty miles north from the junction of the forks of the Columbia, we can reach a portion of the northern branch, which is navigable for steamboats for two hundred miles farther north into the very center of British Columbia and the Hudson Bay company's territory; and already a boat has been built and set in motion on these far away upper waters. It reaches into some of the richest of the fur and gold regions of British Columbia, its whistle and its wheels arousing the wilderness as far north as the fifty second and fifty-third parallels.

Turning to the Snake river fork, for half the year it is navigable for one hundred miles beyond the junction, or to Lewiston, where the boundaries of Oregon and Washington and Idaho meet together. But starting from the junction of the forks at or near Wallula, a wagon road of one hundred and ten miles through the Blue mountains, and across a wide circle of unnavigable waters, strikes the Snake at the Powder river, whence it is navigable for steamboats through the heart of Idaho for one hundred and fifty or two hundred miles on the direct route towards Salt Lake, and to within about one hundred or one hundred and fifty miles of the present Pacific railroad at that point. Thus about three hundred miles of railroad over these two parts of the route from Salt Lake to the main Columbia river, would secure steamboats and cars all the way to Portland, Oregon; or, skipping the navigable part of the Snake river, and making a railroad all the way to the Columbia at Wallula, only 500 miles would have to be built to secure quick, certain and constant steam communication with the Pacific coast through Oregon, while Idaho would be opened by the same means directly to the railroad connections of the continent to the Pacific ocean.

The construction of this branch or extension of the present Pacific road is the ambition of the Oregon people, and the purpose of the Union Pacific railroad company. It would give the latter a direct connection of their own with the Pacific ocean, and render them in a certain sense independent of the California company. Then a railroad through the woods of Washington Territory, for but ninety miles north from the Columbia river, to Puget Sound at Olympia, would bring the far North-west into the circle of steam travel and traffic, and go far to anticipate the service allotted to the Northern Pacific railroad. Montana would alone, under this arrangement, be unprovided for; but the Union Pacific company have also in contemplation a branch road into that Territory from their line either at the Green River crossing or from the Salt Lake valley. But this is a more doubtful and less inviting enterprise than the Idaho, Oregon and Puget Sound line.

On the other hand, the company owning the California end of the Pacific road propose to reach and accommodate Oregon by a branch starting out from their track in the lower part of the Humbolt valley, and running north west through the lake region of southern Oregon and over the Cascade mountains to the head of the Willamette valley, up which the Oregon people are already rapidly constructing a railroad line. From a similar starting point in the Humbolt valley, the California Pacific Railroad Company propose to annex Idaho to their end of the route by a branch running north east. Thus, without waiting for the through northern continental line, whose completion, whatever its claims and necessities, must apparently be postponed for some years, perhaps to another generation, the whole North west of Idaho, Oregon, Washington and British Columbia are certain to be speedily joined to the rest of the nation in the blessed bands of iron, and made near to us by the swift coursers of steam.

A well posted German newspaper has made the important discovery that General William Tecumseh Sherman's true name is Zehrman, that he is a native of West Prussia, from whence in 1845 he emigrated to the United States and enlisted in the regular army. "In the year 1852," it says "the same Zehrman (whom the Americans called Sherman) visited a relative at Schwetzin, Prussia. Here a great many persons remember distinctly having made his acquaintance. In the late American war Sherman became a General."

They tell a story about a man out West who had a hair lip, upon which he performed an operation himself by inserting a piece of chicken flesh. It adhered, and filled up the place admirably. This was well enough until, in compliance with the fashion, he undertook to raise a moustache, when one side grew hair and the other feathers.

LAST NIGHT'S DISPATCHES.

Washington News.

WASHINGTON, June 20.—The revenue and other Federal officers months ago were specifically instructed by the Government to use all due diligence to prevent the sailing of illegal expeditions to Cuba. Action has been taken by them on all cases where information has been furnished, showing a real or intended violation of the neutrality laws. Sometimes the complaints of Spanish officials were founded on mere conjecture or suspicion.

At a very large meeting of the Typographical Union of this city last night the Committee on Nominations, among other things, reported in favor of the admission of Lewis H. Douglass, the colored printer employed in the Government printing office.

CHICAGO, June 20.—The *Tribune's* special says there is reason to believe that the Spanish Minister will follow up the arrest of the Cubans in New York wherever evidence can be obtained showing the violation of our neutrality laws. He himself does not appear in the matter, but evidently is at the head of all the proceedings. There is no reason for the belief that any member of the Cabinet has issued an order, instructions or suggestions. The proceedings are apparently based on the treaty with Spain of 1795.

It may be added that there is no truth in the statement that Secretary Rawlins is inimical to Cuban freedom. His sympathies are not with the Spaniards.

A private letter from one of our leading consular officials in England, says that Motley has been very kindly received by the best class of citizens in that country. Everybody is anxious to know what his instructions are.

Lord Clarendon is quoted in club circles as saying he has no doubt Mr. Motley and himself will ultimately be able to draw up a treaty satisfactory to right feeling men on both sides of the water. The letter further says the Queen is not likely to return to London for some time. Probably Motley will begin a formal intercourse without waiting as usual to be presented.

Miscellaneous.

PITTSBURG, Mass., June 20.—Emma Litke, aged fifteen years, a resident of King's county, was suffocated by escaping gas in the St. James Hotel in this city last night. She had blown out the gas.

LOUISVILLE, June 20.—Yesterday, in the Court of Appeals of Frankfort, the judgment of the Circuit Court of Jefferson county, condemning Wm. Keerl to death for the murder of his wife, March, 1868, was affirmed. Keerl was to have been hung May 28th, but the case having been appealed, the day of execution was indefinitely postponed.

BOSTON, June 20.—The supplementary concert of the Peace Festival, came off at the Coliseum to night before an audience of 15,000. It proved a great success. There were 5,000 choristers. Parepa Rosa, Adelaide Phillips and Ole Bull participated. The concert was conducted by Messrs. Gilmore, Serrah and Eshenburg. There will probably be no musical entertainments given at the Coliseum this week, at least till Saturday, when a series of popular musical entertainments will probably be inaugurated.

In most of the churches to day, favorable allusion was made by preachers to the great moral accomplishments and in commendation of the affair.

CHARLESTON, June 20.—The first execution in South Carolina under the reconstructed State Government, took place on Friday afternoon at Arlington Court House, where a negro named Cyrus Cox was hanged for the murder of Robert Suggis, white, in January last. The execution passed off quietly. The sheriff, and the minister who officiated, as well as most of the spectators and guard who were present, were all negroes. Cox confessed his guilt.

SPRINGFIELD, June 20.—Vice President Colfax spent to day in this city as guest of Saml. Bowles, and leaves to morrow on a visit to Senator Morrill, at Stratford.

MAHONY PLACE, SCHUYLKILL Co., PA., June 19.—A terrible explosion occurred here at half past seven o'clock this evening. The boiler of a locomotive belonging to the Reading Railroad exploded, killing the engineer, George Wilson, instantly, and the fireman was hurt.

HARTFORD, June 20.—Judge James P. Allyn, of this city, formerly one of the United States Judges, who died recently at Paris, left by his will $50,000 each to the Orphan Asylum and the hospital of Hartford and to the charitable society, and $50,000 for the erection of a statuary in the Park, and $25,000 to Hon. Gideon Welles and William Faxser, late of the Navy Department, who were firm personal friends, and the balance to his relations.

FORT MONROE, June 20.—The frigates *Savannah* and *Macedonia*, of the practice squadron, passed out to-day on their annual cruise.

BALTIMORE, June 20.—Two weeks since the Supervisor of this District made an inspection of Ullman's distillery, situated on the south side of Baltimore county, and the result was an order to the Collector to seize all the buildings, machinery and apparatus and 3,000 bbls. whiskey. It is alleged that through the connivance of the Collector or Government officers, every facility had been offered to the proprietors to perpetrate frauds on the revenue. Every section of the revenue law regulating distilleries, had been violated.

Chas. H. McDonald, aged 18 years, employed in the *Republican* office, committed suicide by taking laudanum.

ST. LOUIS, June 20.—About fifty prominent business firms here have guaranteed the merchants of the Commercial Exchange, assurance against loss, in the experiment of bringing an ocean steamer from New York and loading her with grain for that port.

BY ATLANTIC CABLE.

LONDON, June 20.—The Royal Thomas Yacht Club match took place yesterday. Course from Gravesend to Nore and back. The *Druid* beat the *Cambria* one minute and *Silver Cloud* by four minutes; time of the winner five hours, fifty-seven and one-half seconds.

PARIS, June 20.—The city remains perfectly tranquil. No attempts have been made to renew the late disorder. Burlingame is proposing to leave first for Petersburg with the Chinese Embassy and thence for Australia.

LONDON, June 20.—Late advices from Melbourne report that the troubles of the Colonial Parliament continue. The members expelled for bribery, had been re elected. The parties for the bribery of legislators, who had been sent to jail by order of Parliament, had been released by the Judges on the ground that they were wrongly committed. Parliament now appeals to the Privy Council.

NEVADA.

VIRGINIA, June 21.—"Liz," a woman of the town, aged twenty, was found dead in her room on C street yesterday morning. Verdict of the jury, congestion of the brain caused by excessive drinking. Her real name was Maggie Glynn, and she was a native of Austin.

Lizzie Williams tried to commit suicide yesterday by drinking chloroform. The doctor pumped it up and she still lives.

A shooting affray occurred at the house of the "lively fleas," Saturday evening. No one hurt.

One thousand dollars was realized for the unfortunate Stark at his benefit Saturday evening.

James Wilson Blakeley, of Austin has been accepted as the midshipman from Nevada.

There is a sect of believers in Russia who actually bow down and worship the soul or image of the great Napoleon. There is a still larger sect of idolators of power in France who do the same thing in a different way. Napoleon's imperial descendant not long ago told his people that they best recognized God when they rendered homage to great men, such as his uncle. Perhaps acting on that suggestion, the good people of Paris, who expect to go to Napoleon when they die, lately covered his monument with flowers and other votive offerings. Quite opportunely, Mr. Carlyle has come to speak again of Napoleonism in a letter to a friend on the Continent. His comment is a grunt. More and more he has learned to regard Napoleon as a charlatan—"a man of ten thousand a month," as Kleber said—a true embodiment of all the charlatanism of power and all the power of charlatanism. He might have added also, in the same tone and temper—a sublimation of that great Pig Principle to which the philosopher has given the pedagogical rod in one of the most rigorous of his essays. It is the Pig Principle which the Emperor of France would like to erect into a religion.—*N. Y. Tribune.*

Our late civil war has worked wonders on ourselves and on mankind generally. We feel ourselves to be a mighty and compact people. Our onward movements have become more emphatic and more irresistible. Our rapid and gigantic strides, in the shape of internal development and territorial expansion, are startling the world and everywhere extorting the confession that the great controlling force of the future is revealing itself on the Western Continent. We are guilty of no exaggeration when we say that the United States of America are inspiring hope into all peoples and imparting encouragement to all nationalities. It is not, therefore, a matter of surprise to us that we have ceased to be an object of ridicule and become an object of respect and even fear.—*N. Y. Herald.*

OUR SAN FRANCISCO DISPATCH.

SAN FRANCISCO, June 21.—Three boys, Jos. Norton, Joseph Comisky and John Lynch, aged from 15 to 19 years, were drowned in the bay yesterday by the upsetting of the plunger which they were sailing. A fourth boy was rescued by a fishing boat. The bodies have not yet been recovered.

The body of an unknown man, aged about 70 years, was found last night in some bushes at the Calvary Cemetery. He had been dead evidently seven or eight days.

Ah Hoy, the China boy who shot Oscar Halscher four weeks since, has been held to answer the charge of assault with intent to murder. The bail was fixed at $5,000.

Theodore Wilmot attempted suicide yesterday morning by drowning, but was rescued by a sailor from a whaling vessel.

Mrs. Margaret Ward, 60 years of age, fell and broke her arm while walking on Union street yesterday afternoon.

N. A. Black, Adolph Peichell and a man named Blake got into a quarrel this afternoon on Montgomery street, during which Blake used a horse whip, knocking down and severely whipping other assailants. Blake was immediately arrested for assault and battery.

The Unseen River of the West.

Since the first exploration of Fremont and his co-adjutors among the peaks and canyons of the Rocky Mountain system, the books of travelers in that region teem with accounts of paradoxes that set the ordinary courses of nature at defiance. Of these there are almost numberless different classes, but two or three will serve for illustration. Large rivers, they tell us, after flowing hundreds of miles, and receiving the waters of a large tributary system, suddenly disappeared, vanished from sight, and give no clue to their exit. In some cases the mouth of a stream seems to be at or near its middle, the currents flowing both ways till they meet and disappear. Salt Lake, with all the waters it receives, never rises a single inch nor loses a drop of water through any visible outlet.

Again the traveler standing upon some of the immense masses of rock among the hills, feels a tremendous quivering motion, as though some Titanic railway thundered along beneath the surface. Through fissures in the cliffs strange currents of air roar and whisper, and from far within there comes the faint murmur as of a mighty ocean. From Fremont to Dixon, travelers have been content to repeat the phrases of their Indian guides, and call these phenomena simply "blowing caves," "trembling rocks," and "lost rivers." If any have dared to theorize they have feared to write what they dreamed.

There is at last, however, a book in the press which boldly faces the mystery. The writer is Mr. George Catlin, who for many years dwelt among the Indians of the West, and whose portraits of noted Red Men form the principle record by which that record will be remembered.

Mr. Catlin boldly announces his theory that under the entire Rocky Mountain chain, from Alaska, to the Caribbean Sea, there flows a vast subterranean river, whose tributaries [illegible] all principal and divergent ranges, and derive their waters from the constant melting of the ice and snow of the mountain slopes, and from the flow of the "lost rivers" of the plains. The "trembling rocks" are the roof of some roaring subterranean cataract, whose spray rising through the fissures gives us the "steaming caves" of the Rocky Mountain story.

Among mountains of Oregon the traveler finds a lake with a sheer wall of granite 2,000 feet in depth. No human foot ever scaled its [illegible] no human [illegible] ever touched its silent waters. Like a huge well it sinks away into the earth like the guarded door of a realm which human discovery can never penetrate. May not this be a window looking down upon the subterranean [illegible] which the [illegible] has attempted to [illegible], a single peep-hole down to the [illegible] river which flows thence under a thousand miles of mountain rock, to mingle at last with the water of tropic gulf?

Two well known facts seem to point strongly toward the truth of Mr. Catlin's theory. A glance at any map will show that the river system of the Rocky Mountain country is entirely inadequate to carry off the water which the snow and rain of that district would create. Secondly, the level of the Caribbean sea, [illegible] where Mr. Catlin's [illegible] river would naturally pour out its subterrane efflux, is now [illegible] higher than the open sea on [illegible].

Whatever other facts may sustain or disprove this new hypothesis, it is certain to open the way to much more minute and intelligent investigation of the subject than it has ever before received. The study of the subterranean river system and the Aztec [illegible] of Mexico and California, should make that portion of the Republic the chosen [illegible] science and discovery of a century to come.

[illegible]

[illegible] more fancy [illegible] ballot of [illegible] their own. [illegible] men always hold the evils of self-government [illegible] to the eye so [illegible] that they [illegible] all the [illegible]. Popular government [illegible] evils and [illegible] are many. In [illegible] the stately philosopher or [illegible] may see much to [illegible] his fine [illegible] of culture. For, be it admitted, as we have often said, self-government in large cities is not a success and [illegible] we favor the system of [illegible] boards for city control. But the *Imperialist*, printed in New York, is about to be the protest of [illegible] against the misrule of the mob in New York. With a narrowness of view not [illegible] to its managers, this paper [illegible] the blunders and crime which characterize popular government in that city also mark the results of self-government in the [illegible] on. Now we all know that this is not true. The [illegible] in New York voted for [illegible]; the nation did not. The populace in New York voted for slavery to the rebellion; the [illegible] did not. Whatever had thing the mob in New York has thus far voted for the people of the country have [illegible] against. And not only republicanism but self-[illegible] it would be a terrible failure if it [illegible] be judged by the results in that city in which the *Imperialist* is printed, and beyond which its vision seems not to extend.—*St. Louis Democrat.*

[illegible] a certain evening party a haughty young beauty turned to a student who stood near her, and [illegible] eccentric [illegible] is here. Do bring him here and [illegible] to me."

The student went in search of his friend, and at length found him lounging on the sofa. "Come L[illegible]," said he, "my beautiful cousin Catharine wishes to be introduced to you."

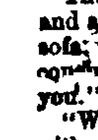

"Well, trot her out, John," drawled L[illegible], with an affected yawn.

John returned to his cousin and advised her to defer the introduction to a more favorable [illegible] received. The [illegible] bit her lip, but the next moment said: "Well, never fear, I shall insist on being [illegible]."

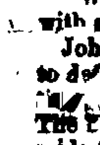

After [illegible] delay, L[illegible] was led up, and the ceremony of introduction was performed. [illegible] surprised by the beauty and commanding appearance of Catharine, L[illegible] made a profound bow; but instead of returning it, she stepped backward, and raising her glass, surveyed him deliberately from head to foot; then waving the back of her hand toward him, drawled out: "Trot him off, John! trot him off! that is enough!"

Important Facts!!!

THE CAPITAL STOCK
—OF—
THE PACIFIC
MUTUAL LIFE INSURANCE CO.,
OF CALIFORNIA,
IS PAID IN,
IN GOLD COIN!!
—AND—
Cost Nothing to be INSURED!

This is Additional Security, Without Cost to the Insured, that the Capital Stock bears its own Interest!

THE PUBLIC CAN ACQUAINT ITSELF WITH the business reputation and standing of the Stockholders and Directors of the Company, and determine from that knowledge [illegible] the Company are likely to be honestly and fairly administered for the benefit of the Insured.

POLICIES ISSUED BY THE
PACIFIC MUTUAL
ARE NON-FORFEITABLE,
And by the Laws of California,
EXEMPT FROM EXECUTION!

The Company will at any time make AN ADVANCE of Cash on its Policies as future Dividends.

No permits or extra rates required for traveling East or in Europe.

Dividends actually non-forfeitable.

Thirty days grace on the payment of all Premiums.

After two annual payments the Company will, two years after the last payment, issue either a paid up Policy for the proportion of Premiums received, or pay the equivalent in cash.

The interest, which we have been sending money East for Life Insurance will amount, with interest, to at least Ten Million Dollars by January 1, 1870. This sum, enormous as it seems, is totally eclipsed by the magnitude of the interest which the Coast is losing for want of [illegible] at 6 per cent., compounded annually for ten years, is $6,952,167 27; here at 12 per cent. for [illegible], and 10 per cent. for six, compounded monthly, $25,690,906 62, or a difference of over eighteen millions!

With these facts in view what Company will likely pay the largest Dividend! The funds of the PACIFIC are [illegible] per cent. per [illegible]. [illegible] that Oregon and Washington Territory have contributed about one-fourth [illegible] on Policies at [illegible], at least six or seven hundred thousand dollars, which if continued will soon drain the [illegible] of all its [illegible]. If to California, it finds its way back here for our productions, a market for which we must look for there.

The applicant need not wait two or three months to know if he is accepted or rejected, but can receive his Policy in less than two weeks, and in case of death the money will be paid to his wife in as short a time.

HYGEIAN HOME
WATER CURE,
637 California Street,
Opp. St. Mary's Cathedral, bet. Kearny & Dupont Sts.,
SAN FRANCISCO.

DR. BARLOW J. SMITH

WOULD RESPECTFULLY INFORM HIS FORMER patrons, and all who desire the [illegible] services of a Hygienic Physician, that he has just returned from the East, after an absence of four months, during which time he has visited nearly all the Water Cures in the Eastern States, and the various Hygienic Establishments of New York City, Boston and Philadelphia, and with this new experience feels more fully prepared than ever to meet all the demands that invalids may justly claim who desire to be cured by this [illegible] form of medication.

In January last DR. SMITH purchased the extensive lot corner of Quincy and California streets, with the buildings thereon, which he has fitted up at great expense, for the accommodation of PATIENTS and BOARDERS, with a greater variety of baths for the cure of DISEASE as well as popular bathing than is to be found in any Water Cure in the United States.

HYGEIAN HOME is the only Regular Water Cure in San Francisco, and by far the most extensive and complete Hygienic Institute on the Pacific Coast.

And we offer to Ministers, [illegible], Lawyers, Miners, Merchants, Mechanics, Farmers, and all worthy persons, especially those who have tried drugs faithfully [illegible] being restored, and who are still [illegible] of regaining health by this rational system of medicine, the hospitalities of our Hygienic Home and Cure. Young men who have become debilitated or lost their health by excessive toil, exposure or enervating habits, [illegible] through ignorance of physical laws, may with us find more of the encouragement they need, and means that will restore them to health, than elsewhere in California.

There is not one man in twenty suffering from Rheumatism, Neuralgia, Gout, or Diseased Liver, Chills and Fever, Dyspepsia, Drug or Secondary Disease, Spermatorrhea or Seminal Weakness, Impotency or Nervous Debility, Weak or Inflamed Eyes, Bronchial and Catarrhal Affections, Disease of the Heart, Lungs, Kidneys, Constipation, Paralysis, Scrofula, Piles, Inflammation of the Bowels, Chronic and Acute Diarrhea, Stiff Joints, Oak Poisoning, Weak Backs, Hip Disease, Salt Rheum and many other Diseases common to Men and Women, that cannot be permanently cured in from two to six weeks by Water Cure and Hygienic treatment. *Not only will they get cured, but they can learn how to keep well* when they go to their mountain homes, their mines, their farms, their stores, and all this for one half what it would cost to take drugs.

Terms $20, by the single week, or $60 for four weeks, Board, Room and T[illegible].

N. B.—All suffering from cutaneous diseases are treated in separate baths which are never used by persons bathing for cleanliness. The greatest care and neatness is observed in this respect. No contagious diseases, such as Small Pox and Ship Fever, treated in the Institution.

We have a separate Medical Department for Ladies, which is attended by a thoroughly competent woman, while the private residence of DR. SMITH, which is connected with the Home, is chiefly devoted to the accommodation of ladies desiring Hygienic medical treatment.

We have for the past ten years made the treatment of female diseases a specialty, and have treated a great number of females, both in the Institute and in their private residences in this city, Sacramento and Oakland, who were suffering from Displacements, Prolapsis Uteri, Uterine Hemorrhage, Sterility, Curvatures of the Spine, Inflammations, Congestions, and ALL NERVOUS DISEASES, together with diseases common to all.

The ease and rapidity with which the varied diseases and conditions above mentioned have been overcome, especially in the vicinity of the Bay, fully warrant us in declaring that there is not one female in a hundred who is thus afflicted but that can be made well and happy in from three to six weeks by thorough Hydropathic and Hygienic treatment at our Cure. From all who have *come to us and been treated,* we have yet to learn a single regret from Husband or Wife of the time, means or trouble they expended in HYGIENIC MEDICATION, *for they not only get well, but learn how to keep well.*

Terms for Ladies $20 a week, or $100 for six weeks (Board, Room and treatment).

DR. SMITH gives FREE Lectures to his patients every Wednesday evening, and also Lectures before the Ladies Hygienic Society the first Wednesday in each month.

HIRAM SMITH'S

Ophthalmic Panacea!

IS WITHOUT DOUBT THE MOST WONDERFUL EYE HEALER that has yet been discovered.

It CURES the most stubborn and hopeless cases of CHRONIC INFLAMMATIONS, GRANULATED LIDS, FILMS, &c., as has been sufficiently demonstrated during the few months in which it has been brought into public notice. The proprietor is so fully convinced of its INFALLIBILITY that he WARRANTS A CURE OR REFUNDS THE MONEY. It can do the eyes no harm, and a trial of it is therefore without injury or expense to the patient if a cure is not effected.

It has cured cases of FIVE, SIX, NINE, FIFTEEN, and even EIGHTEEN YEARS' standing in Ha[illegible], Linn county, Oregon, and its vicinity, to which the following persons will bear witness:

E. B. MOORE,	NATHANIEL REY[illegible],

From Samuel Cassidy, Editor Journal [illegible]:

PETALUMA, CALIFORNIA, [illegible]

For about twenty years I had used [illegible] in its various forms, and for the past eight [illegible] an inveterate smoker. Becoming satisfied that the excessive use of this narcotic was seriously [illegible] health, I determined if possible to check [illegible] habit. Hearing of Orton's Preparation [illegible] the appetite for Tobacco, I sent to [illegible] box of the medicine, which I received [illegible] on the 17th of November. A month has [illegible] yet the medicine has effectually rid [illegible] yearning or desire to use Tobacco in any form. The Preparation is not more difficult or [illegible] than to commence chewing gum. I [illegible] lieve the Preparation will have the promised and desired effect in every instance where it is given a fair trial. Upon that belief and from an honest desire to [illegible] those who wish to break away from the [illegible] Tobacco I offer this testimonial.

THE EMMET GUARD'S PICNIC.—The annual picnic excursion of the Emmet Guard came off yesterday. The festivities of the day were celebrated at Pleasant Grove, the excursionists being conveyed thither by the P. T. Co.'s steamer *Alert*. The first trip was made at half past nine A. M., the boat taking the band, but only a comparatively small number of excursionists. A much larger number went up by the next steamer, at 11 o'clock, and a good many went at each of the succeeding trips. Under all the circumstances—and there were one or two events which exerted a depressing influence upon the occasion—the numbers in attendance, and the exercises of the day were quite up to the most sanguine expectations. From the arrival of the second boat the enjoyments of the day began, and were kept up without intermission till near six o'clock P. M. Many of the games afforded [illegible] amusement. The hurdle race, contested by six or eight of the boys, was won by Aleck Hamilton. The first rope to be leaped upset three or four of the racers, while the rope itself was carried away. Only two or three attempted the second one and no more than two leaped the third. The scramble created uproarous merriment among the spectators. The prize was a pair of extra fine boots, given by Capt. Cahalin. A foot race, one hundred and fifty yards, was won by Mike McGuire, against a half dozen competitors. Prize, a beautiful picture presented by Mr. McQuillan. The sack race, another laughable affair, was won by Johnny Kearney; prize, a splendid Colt's repeating six shooter, given by Mr. Brady. About the funniest race of the day, however, was the wheelbarrow race, the trundlers being blindfolded. At the first start [illegible] of them whirled entirely around, and both badly got off the track and ran into a brewery wagon, without reaching [illegible] stakes. It was decided no race, and the [illegible] started over again. This time they collided and [illegible] up a terrible cloud of dust, one of them was [illegible] boots, losing his wheelbarrow which he did not find again in time to save his distance. The conclusion of this race was hailed with tumultuous applause. [illegible] We did not learn the name of the winner. The prize was a beautiful [illegible] case, given by Mr. [illegible]. After this there were numerous other races, target shooting by ladies, etc., etc. Miss [illegible] won the prize for target shooting—a beautiful photograph album. The whole affair passed off quite pleasantly from first to last. The festive throng, returning, reached the city about 7 o'clock P. M.

FROM VANCOUVER.—We clip the following items from the *Vancouver Register* of Saturday:

The Fair of the [illegible] Church realized about $100.

In digging the trench to lay the water pipes in this city, the workmen, the other day, dug up in the street, in front of Dr. Wall's store, the remains of an Indian. He had a pipe, some Hudson Bay beads and other ictas buried with him.

STEAM POWER, NOS. 625 AND 627 FRONT ST.
HAS CONSTANTLY ON HAND GROUND AND ROASTED COFFEE, GREEN COFFEE of the best qualities. CREAM OF TARTAR and SPICES of all sorts.
The undersigned, who has always enjoyed public confidence for the excellent quality of his Coffee, neglects nothing to justify the good name acquired by his productions, the sale of which daily increases. The acknowledged superiority of his merchandise, which commands here, and in the markets of the interior, a relatively higher price, excites the cupidity of some manufacturers, and every day he sees increasing the number of those who, by counterfeit or imitation of his mark, seek to deceive the public, palming upon them their inferior productions for the genuine G. VENARD CHARTRES COFFEE. This fraud can deceive nobody after a trial, but only adds to the favorable opinion of the consumers, the very flattering though unwilling testimony of the counterfeiters. Nevertheless, buyers should be forewarned, and placed on their guard against this practice.
BEWARE OF COUNTERFEITS.

The Contest To day.

The true secret of political success lies in organization and continued effort. Unless men act in concert the best cause that ever enlisted the sympathy of mankind will fail. Republicans are harder to be kept under efficient organization than Democrats; but Republicans should remember that organization is the first essential of success. No political result can be achieved except through the agency of a political party. The election that takes place to-day is a very important one, and on such occasions all personal differences and aspirations which may have existed among Republicans should vanish. We are struggling for a great cause, not for the triumph of men. If there is any man among us who values that cause less than his own advancement, let him be set aside and frowned down. The Republican party is better and greater than any man in it.

The Republican party of Portland constitutes a majority of its citizens, a fact which was fully demonstrated only six months ago; and nothing but apathy or dissensions on our part can prevent us from achieving continued success. We hear of two or three persons claiming to be Republicans who are trying to weaken the Republican ticket by parading an "independent ticket" which is made up mainly of Democrats; but such a movement as this will not have the countenance of any man unless he be a selfish intriguer who is unworthy of confidence. It is of the greatest importance that the Democracy should be taught again, as they were in November last, that this is a Republican city. It is success in minor contests, about which some Republicans say they care little, that encourages the Democratic party to [illegible] fierce efforts on [illegible] in the hope that they may gain control of the State and Federal Administrations. The duty of Republicans is now as clear as it was last November. Let us work with energy and the victory will be ours. Republicans! come out and vote!

On Friday night and Saturday morning A. D. Shelby was [illegible] busy, getting out an independent ticket. W. H. Bennett was engaged with [illegible] did all the work. These two gentlemen, after taking thirty or forty drinks apiece, succeeded at last in forming a ticket for the "Tax-Payers" (!) of Portland to support. Bennett, of course, was the center [illegible] [illegible] so as to cause them to revolve around this great central light. But [illegible] to hold them in their [illegible] they [illegible] on the [illegible] It is understood that [illegible] fort yesterday. After he gets the "independent ticket" fixed up to suit him he will go and vote the Democratic ticket straight. But at last accounts [illegible] the Tax-Payers in company with Bennett.

A [illegible] by our dispatches to-day a [illegible] is to be hanged in Texas under the reconstruction laws. This gives the *Herald* [illegible] it horrible tyranny that any [illegible] of the Southern chivalry [illegible] for murder. No doubt the murdered man was a "Radical," [illegible] he was nothing but a [illegible]. Now if our Southern brethren are not to be allowed to kill [illegible] with impunity, what is to become of the liberties of the [illegible] More than five hun[dred] [illegible] of this [illegible] have been committed in Texas during the last three years, and this is the first case of punishment. Such tyranny is terrible indeed!

The Republicans have presented for Auditor the name of W. S. Caldwell. It would be quite superfluous to say one word in com[mendation] of a man whose qualifications for the position which he has filled so acceptably are so well [illegible]. His competitor is a man who is unknown to our citizens except as an intriguer among the petty Democratic politicians of the city. The people of Portland are to choose between a man of established reputation and known ability for the position, and a mere [illegible] who lives nowhere and who is drifting about the world in the hope that something may turn up.

The *Herald* is terribly exercised about the Grand Army of the Republic. If this were an organization for the subversion of the Government, like divers Democratic organizations of a kindred nature which have been formed during the last ten years, the *Herald* would not say a word against it. But as it is composed of men who have shown their regard for the country by defending it against fighting Democrats at the South and plotting Democrats at the North, the *Herald* is of course down on it. What else could be expected?

The "organ" has been greatly troubled because the Republicans did not nominate their ticket sooner, and has talked at considerable length about "midnight conspirators." Now it happens that the Democrats have not completed their ticket yet. They have named no candidate for Councilman in the Third Ward. Nor did they nominate a candidate in the Second Ward until Saturday night. Who knows how S. F. Shattuck was nominated? What dark-lantern clique got out his name at the eleventh hour?

The *Herald* is making a great noise about Mr. Goldsmith and his money. We suppose that a man who has some money which he has accumulated by industry and business enterprise, and who promptly pays every cent of his just debts, is a better man for Mayor, or as a private citizen, than one who [illegible] mes to live in great style, while laboring men who have built him up in greatness and grandeur are unable to get out of him the money they have justly earned.

It is reported that certain severe moralists in this city propose to reform our politics and elevate society upon a high moral plane by running Bill Bennett for Marshal. Who shall despair of the final regeneration of politics and society so long as such defenders can be found?

The *Herald* says: "When this proposed fifteenth amendment was before Congress pressed for its passage by Republicans the OREGONIAN said of it as follows:

"'The Republicans of other States who understand the Chinese question will not refuse to support this amendment. The Republicans of Oregon will have nothing to do with it.'"

The OREGONIAN did not say this of the present fifteenth amendment, as the *Herald* well knows. What the OREGONIAN said in the article quoted from had reference to the first form in which the amendment was proposed. Had it been adopted in that form there was a chance that the Chinese might have become voters under it. But it was rejected by Congress, and the amendment was then presented to the States in the form it now stands. It is characteristic of the *Herald* to resort to such misrepresentation as it has attempted in this matter.

A Radical officeholder in this city was asked yesterday morning how he liked their ticket. "Very well," said he, "only there should have been some one put on to catch the American vote." —*Herald*.

Wouldn't this remark be quite as applicable to the Democratic ticket? We scorn, however, any distinction between citizens whether native or of foreign birth. The Copperhead Democracy are hard to please. If the Republicans present a ticket which happens to consist mainly of the names of citizens of American birth, these narrow-minded creatures cry out "Knownothingism" and "proscription;" if they happen to present a ticket which bears the names of a number of adopted citizens, these same little creatures sneer at the "foreign element" in it. It was always the fashion of the Democratic party to persecute that portion of the so-called "foreign element" which it could not use.

Every citizen of Portland knows that Philip Saunders is one of the most efficient and trustworthy officers ever connected with the police of this city. He has served for years among us, and has always been found at his post. He has always been active, vigilant and unremitting in his attention to duty, and by the record he has made has acquired the confidence of all classes of citizens in his integrity as an officer. He is opposed by a man who has shown himself notoriously incompetent as an officer and totally unfit for so responsible a position. The voters of Portland will choose between these two men to-day.

A vigorous attempt has been making among the Democracy for two or three days to get Jack Buchard out of jail for election purposes. Buchard is the individual who killed a man not long ago in the Democratic headquarters on Alder street. Some of the Democratic politicians have been in consultation on the subject with their candidate for Mayor, but we have not learned what they have decided to do. It is thought that it would be a great card for them to secure Buchard's services at the polls to-day. He would make a first-rate special policeman to work in the interest of Jacobi. Jacobi always appoints his kind.

Dr. Chapman was once Mayor of this city for a short time, and while in that position our citizens had a touch of his quality. He had no independence or personality, but was "run" entirely by Hallock. The clique managed him even in the minutest particulars, and he either had no ideas or will of his own, or dared not assert them. If he is elected to-day Hallock will be Mayor of the city, using Chapman as his instrument.

The Democratic organ seems to think it can accomplish much for its party by coarsely abusing Mr. Goldsmith. Now if personalities are to be indulged in the "organ" would do well to remove some of its candidates out of the frail glass houses which they inhabit.

Messrs. Lewis and Backenstos, candidates on the Republican ticket, repudiate and disown all connection with a certain "independent ticket" which was in circulation last Saturday and on which their names are printed. Shelby and Bill Bennett have no scruples about stealing men's names.

Beriah mourns over the result of the election in Washington Territory, and delivers a long discourse on "the baneful influence of party spirit." Beriah is very sick. He should eschew party hereafter.

"Goldsmith's money" gives the *Herald* a great deal of trouble. But there is much more inquiry about Chapman's money. The reason is there are many more people who have a deep personal interest in the matter.

OREGON.

Miss Dix informs the Corvallis paper that she is a relative but not a sister of Gen. Dix.

The additions to the Baptist Church in Oregon during the last year have been two hundred.

The attempt to celebrate the Fourth at Corvallis has failed. The money that was raised has been refunded.

Everybody in Eugene goes a blackberrying these days. The people havn't anything else to do and blackberries are plenty.

The *Unionist* says that Salem has advanced three-fold in population in the space of five years, and the increase of wealth has been still greater.

The barn of Nelson Swaggart, on Camas Swale, in Lane county, was set on fire a few days ago and consumed. It contained 600 bushels of grain.

Some fellow, the other day, shot a mare worth $200 belonging to John Maxwell, of Lane county, breaking her leg. The owner was compelled to kill her.

Beriah says that whenever his party takes to proscribing those who adhered to the party during the war he will declare his independence. Of course he will, for he was the most malignant rebel of them all.

A horse ran away at Corvallis last week with two men named Gounsky and Fox. Both were thrown out of the buggy. Gounsky's arm was broken. The horse ran some distance and fell and broke his neck.

A few days ago as a party was driving out from Eugene to a campmeeting on Coast Fork, the horse became frightened and threw the wagon over a precipice. A child of Mr. Linder's, aged nine months, was killed, one of Mrs. Linder's legs was broken, and others of the party were severely injured.

The Democratic papers modestly claim a triumph in the municipal election at Corvallis. The fact is that election was not conducted at all on party issues. The contest was entirely on the temperance question. It so happens that some of the officers elected are Democrats, and this is the basis of the great "triumph" claimed.

On Saturday, the 12th inst., says the *Democratic Press*, a young man known as Thomas about 30 years of age, died suddenly at the lower end of Spring Valley from excessive drinking of cold water while he was very much heated. The day, it will be remembered, was excessively warm, and coming in from the field during the day the deceased, it is said, drank about two gallons of water within a very short time, when, feeling giddy, he staggered to a bed, fell upon it and almost instantly expired.

LAST NIGHT'S DISPATCHES.

CHICAGO, June 19.—The *Tribune's* Washington [illegible] says McGarrahan's case has got into the Attorney General's office. Both sides asked the Secretary of the Interior to issue patents to them, and he referred the matter to Judge Hoar for advice. McGarrahan's counsel appeared before the Attorney General to resist the application.

Nothing is heard from McMahon, but Secretary Fish thinks the recent cable dispatch shows that communication has been opened with him.

The case of Lawyer Bradley against Judge Fisher was called at the Circuit Court, yesterday. Bradley claims $20,000 damages, because Fisher expelled him from the court during the Surratt trial. Fisher filed a plea, shielding himself behind the prerogative of the Judge on the bench at the time the proceeding occurred.

The State Department has received dispatches from Mr Motley, formally announcing his arrival in London and giving an account of his informal interview with Lord Clarendon. The Queen was still at Balmoral, and Mr. Motley therefore had not been presented to her.

HUDSON, N. Y., June 29.—The first charter conferred by the regents of the New Jersey University to grant degrees to women, was to day conferred upon the Hudson River Institute, at Claverick.

WASHINGTON, June 19.—Prominent Texans say that all the accounts from the Texas Convention agree that the delegates from only seventeen counties were present. The Convention was not called by a regular organization, but by bolters. Flake's *Bulletin*, in a long leader, reviews the facts and asserts that General Davis did not expect an election, but only runs to defeat the Constitution. That paper for the first time declares for Hamilton, and says the good of the country requires his election.

NEW YORK, June 19.—Two men named Mayer and Lewis were arrested last night, charged with boring holes in the bellows of the gas meter. Each hole saved ten per cent. in the consumer's bill, while the companies sustained ten per cent. loss. This fraud has been largely practiced here and in Boston.

CONCORD, N. H., June 19.—John H. Austin was shot dead Thursday evening at Dover, by Ann Gage. Some young people were examining a revolver, when the deceased asked Miss Gage to fire at him, not supposing the pistol to be loaded.

Geo H. Yeaman, formerly a member of Congress from Kentucky, will be retained as Minister to Denmark. The President removed him during the late session and named Gen. Andrews, of Minnesota, as his successor, who was confirmed by the Senate. On further investigation, however, the President concluded to allow Yeaman to remain, therefore Andrews has been transferred to Sweden, the place sought by C. Toleck. Yeaman will be nominated for Denmark and Andrews for Sweden at the next session of Congress.

Cuba.

HAVANA, June 19.—The arrest of the Cuban Junta, at New York, causes intense excitement at Havana. The press praises the action of the American Government.

BY ATLANTIC CABLE.

NEW YORK, June 19.—The *Herald's* London special says the debate in the House of Lords to-night creates intense interest. There is a determination to force a division, but it is not expected before 4 o'clock in the morning. The chamber is crowded with spectators, including the Prince of Wales and the Duke of Cambridge, who apparently intend to sit out the debate. The best calculators count the passage of the bill to a second reading by from twelve to twenty-two majority. The general belief is that the House of Lords will strike out the disendowment feature, and leave establishment alone. This is likely to prove more embarrassing to the Ministry than a direct rejection of the bill.

Rumors are rife of an attempt to drive Bright from the Cabinet.

OUR SAN FRANCISCO DISPATCH.

SAN FRANCISCO, June 20.—A Chinaman named Ah Foot was arrested here yesterday on a charge of grand larceny in stealing $400 coin and $800 worth of jewelry from his employer, a Mexican, near New Alameda. Ah Foot confessed that he stole the property, but has gambled it all away.

The *Orizaba* sailed this morning for Arizona.

Stockton Dispatch.

STOCKTON, June 20.—That martyr of British persecution, George Francis Train, spoke to a very slim audience in the Stockton Theatre last night.

GENERAL NEWS ITEMS.

Recent official figures say that it has cost the Government nearly two hundred thousand dollars for every Indian it has killed in the last ten years.

The Government has determined to put 2,500,000 acres of land in the market at Denver City, Colorado. The sale will begin the 13th September next.

The American Institute of Homœpathy, which, strange as it may seem, is said to be the oldest National Medical Association in the country, holds its twenty-second anniversary at Boston on the 8th, 9th, 10th and 11th of the present month.

Prince Arthur, Duke of Edinburg, second son of Queen Victoria, is now supposed to be at Honolulu, and, the *Alta* learns by private letter from the Islands, that there is talk of his visiting San Francisco, "in spite of the Fenians."

Gen. Thomas left San Francisco June 16th for the North, overland via Sacramento. He will visit the various posts in Northern California, Nevada, Idaho and Oregon, and thence by steamer to Sitka, returning by sea to San Francisco.

The Virginia, Nevada, *Enterprise* of June 13th, gives the following for the benefit of San Francisco merchants: Wertheimer, cigar and tobacco merchant of this city, has set the notable example of importing directly from the East. He has received his first lot of goods, and at rates that will enable him to sell in this city at the same prices he formerly paid in San Francisco.

The negro postmaster at Macon, Georgia, does not suit the white gentry of that secesh neighborhood. A deputation of the first families of Georgia has waited upon Grant recently to say that this thing must not and shall not be. The President replied that the appointment had been made and must stand. The whirligig of time hasn't revolved just exactly as Robert Toombs though it would.

SUMNER AND THE PRESIDENT.—The Washington correspondent of the New York *Times* gives a correct version of the story reported last week about the failure of Mr Sumner, on a recent occasion, to see the President, and his feelings in consequence. Mr. Sumner did say to the doorkeeper, in response to his reply that Gen. Grant was busy and would like to know if his business was important, that he never called unless he had business of importance; but he added, "if he is very much occupied I will not press an interview to-day." There is no coolness between Gen. Grant and the Senator. The business on which Mr. Sumner called was to request the appointment of H. M. Turner, a colored man, as postmaster at Macon, Ga., which has since been made.

ANOTHER CELEBRITY COMING.—Mark M. Pomeroy, better known as "Brick" Pomeroy, editor of the *La Crosse Democrat*, *New York Democrat* and *Pomeroy's Democrat*, is coming to California, and is expected to arrive next week. "Brick" is the fifteen inch Columbiad, a "bow-chaser" on the old rotten mud scow of Democracy. In conflicts of freedom with slavery, Union with secession, right with wrong, and Republicanism with Democracy, "Brick" has always been "under dog in the fight." This celebrated fifteen-inch of Democracy has generally made his presence known in action, not by throwing grape, canister, solid shot or shell, but by shooting "stink-pots" in every direction.—*Times*.

HEAVY BLAST.—They are blasting rocks on the Virginia City and Truckee railroad. On the evening of the 5th, by the premature explosion of a heavy blast, one man was killed and another very seriously injured. The man who was killed was blown over forty feet into the air, and fell in a ravine upon a rocky piece of ground. When taken up he was found to be almost literally torn to pieces. His bowels strewed the ground, both of his eyes were burned out, his face torn to pieces and in short, he was left a mass of mangled flesh and bones.

Whatever may be said theoretically against Secretary Boutwell's "financial policy," there is one feature of it that we thoroughly believe in. He is steadily reducing the public debt. This a "policy" that all can understand and that every patriot must rejoice in.

The suffrage clause in the Texas Constitution cannot be submitted separately, as the whole instrument is impregnated with it. A number of sections are conformed to it. So the vote must be, the Constitution or nothing.

The following is given as a sure cure for felon on the finger: Take common rock salt, such as is used for salting down pork and beef, dry it in the oven, then pound it fine and mix it with spirits of turpentine in equal parts. Put it on a rag and wrap it round the thumb, and as it gets dry put on some more, and in 24 hours we are assured the felon will be dead.

The S. F. Bulletin of the 10th says: "General trade is far from satisfactory. For some lines of goods the month of May was an unusually dull one. June thus far, too, has but little improvement on May. There is a lack of spirit of anything like speculation in leading staples. The truth is, the general markets are well supplied, and in the present quiet condition of trade and ... there is no ... to carry stocks not absolutely required by every day demand. Hence there is but little doing from first hands, and even that ... very largely of a jobbing character. Important Facts!!!

THE CAPITAL STOCK

—OF—

THE PACIFIC

MUTUAL LIFE INSURANCE CO.,

OF CALIFORNIA

IS PAID IN,

IN GOLD COIN!!

—AND—

Cost Nothing to be INSURED!

This is Additional Security, Without Cost to the Insured, that the Capital Stock bears its own Interest!

THE PUBLIC CAN ACQUAINT ITSELF WITH the financial reputation and standing of the Stockholders and Directors of the Company and determine from that knowledge whether the affairs of the Company are likely to be honestly and fairly administered for the benefit of the Insured.

POLICIES ISSUED BY THE

PACIFIC MUTUAL

ARE NON-FORFEITABLE,

And by the Laws of California,

EXEMPT FROM EXECUTION!

The Company will at any time make AN ADVANCE of Cash on its Policies as future Dividends.

No permits or extra rates required for traveling East or in Europe.

Dividends actually non-forfeitable.

Thirty days grace on the payment of all Premiums.

After two annual payments the Company will two years after the last payment issue either a paid up Policy for the proportion of Premiums received, or pay the equivalent in cash.

The rate at which we have been sending money East for Life Assurance will amount with interest, to at least Two Million Dollars by January 1 1870. This sum enormous as it seems, is actually eclipsed by the magnitude of the interest which the Coast is losing for want of it. For instance: Its yield to the East at 6 per cent compounded annually for ten years is $4,642,167 .. here at 12 per cent for four years, and 10 per cent. for six, compounded monthly $23 ... or a difference of over eighteen millions.

With these facts in view what Company will likely pay the largest Dividend? The funds of the PACIFIC are all loaned at 1 to 1½ per cent per month.

Of this large sum it is computed that Oregon and Washington Territory have contributed about one-fourth. This involves the sending away annually, to keep up the Premiums on Policies already ... at least six or seven hundred thousand dollars, which if continued will soon drain the State of all its cash. If to California it finds its way back here for our productions, a market for which we must look for there.

The applicant need not wait two or three months to know if he is accepted or rejected, but can receive his Policy in less than two weeks and in case of death the money will be paid to his heirs in as short a time.

HYGEIAN HOME

WATER CURE,

637 California Street,

Opp St Mary's Cathedral bet Kearny & Dupont Sts.,

SAN FRANCISCO

DR. BARLOW J. SMITH

WOULD RESPECTFULLY INFORM HIS FORMER patrons and all who desire the professional services of a Hygienic Physician that he has just returned from the East after an absence of four months, during which time he has visited nearly all the Water Cures in the Eastern States, and the various Hygienic Establishments of New York City, Boston and Philadelphia, and with this new experience feels more fully prepared than ever to meet all the demands that invalids may justly claim who desire to be cured by this rational form of medication.

In January last DR SMITH purchased the extensive lot corner of Quincy and California streets, with the buildings thereon which he has fitted up at great expense, for the accommodation of PATIENTS and BOARDERS, with a greater variety of baths for the cure of Disease as well as popular bathing than is to be found in any Water Cure in the United States.

HYGEIAN HOME is the only Regular Water Cure in San Francisco and by far the most extensive and complete Hygienic Institute on the Pacific Coast.

And we offer to Ministers, Teachers, Lawyers, Miners, Merchants, Mechanics, Farmers and all worthy persons, especially those who have tried drugs faithfully without being restored and who are still desirous of regaining health by this rational system of medicine, the hospitalities of our Hygienic Home and Cure. Young men who have become debilitated or lost their health by excessive toil, exposure or enervating habits, contracted through ignorance of physical laws, may with us find more of the encouragement they need, and means that will restore them to health than elsewhere in California.

There is not one man in twenty suffering from Rheumatism, Neuralgia, Gout or Diseased Liver, Chills and Fever, Dyspepsia, Drug or Secondary ... Spermatorrhea or Seminal Weakness, Impotency or Nervous Debility, Weak or Inflamed Eyes, Bronchial and Catarrhal Affections, Disease of the Heart, Lungs, Kidneys, Constipation, Paralysis, Scrofula, Piles, Inflammation of the Bowels, Chronic and Acute Diarrhea, Stiff Joints, ... Weak Backs, Hip Disease, Salt Rheum and many other Diseases common to Men and Women that cannot be permanently cured in from two to six weeks by Water Cure and Hygienic treatment. IS WITHOUT DOUBT THE MOST WONDERFUL EYE HEALER that has yet been discovered.

It CURES the most stubborn and hopeless cases of CHRONIC INFLAMMATIONS GRANULATED LIDS, FILMS &c., as has been sufficiently demonstrated during the few months in which it has been brought into public notice. The proprietor is so fully convinced of its INFALLIBILITY that he WARRANTS A CURE OR REFUNDS THE MONEY.
